Good morning Harry, Andy and Charles

EPA staff received the technical information for the Goliad aquifer exemption as of Friday, July 13, 2012.

Currently, staff are in the field with TCEQ working on another project through Wednesday evening. I anticipate that we will need a few days after they return to the office to review the information.

We can tentatively set up a conference call for Monday, July 23rd in the afternoon. Please let me know your availability for that day.

Thank you,

Stacey B. Dwyer, P.E.
